

Seamless geoinformation of coastal zone "Northern coastal zone of Noto Peninsula"

Seamless geoinformation of coastal zone "Northern coastal zone of Noto Peninsula" contains results of geological and geophysical surveys and study results which have been conducted by "Urgent studies on the 2007 Noto Hanto earthquake" supported by MEXT in 2007 and the collaboration of the research units under the Geological Survey of Japan and supported by a special program "Geological study of coastal zone" in 2008.

This DVD contains maps and documents listed below. They can be seen by starting [index_e.html](#).

Contents

[readme_e.txt](#)

[index_e.html](#)

1:200,000 Marine geological map around the northern part of Noto Peninsula with explanatory notes, by Inoue, T. and Okamura, Y.

1:200,000 Geological map of the northern part of Noto Peninsula with explanatory notes, by Ozaki, M.

1:200,000 Seamless geological map and geological cross sections of the northern part of Noto Peninsula, by Inoue, T., Ozaki, M. and Okamura, Y.

1:200,000 Sedimentological map of coastal-shelf area of the northern part of Noto Peninsula with explanatory notes, by Ikehara K.

1:200,000 Gravity map of the northern Noto Peninsula, with explanatory notes, by Komazawa, M. and Okuma, S.

1: 200,000 Geological Map with gravity contours in and around the northern part of Noto Peninsula with explanatory notes, by Ozaki, M., Komazawa, M. and Inoue, T.

Reprocessed seismic reflection sections off Noto Peninsula, by Kano, N., Ito, S, Yokota, T. and Yamaguchi, K.

Acknowledgements

This issue was prepared by supports of people listed below.

Review of manuscripts: H. Katayama, T. Yoshikawa, K. Arai, T. Yokokura, K. Kagohara, K. Nawa

GIS data processing: J. Miyazaki

Raster data processing: S. Kawabata

Procedure of geographical data publication: K. Nakajima

Editing pdf files: A. Kurosaka

Editing HTML files: A. Kurosaka

Cover and case design: A. Shima

Data Format and System Requirements

The maps and their explanatory notes in PDF and HTML format can be browsed with Adobe Reader or web browser.

Operating Systems: Windows and Macintosh platforms that are capable of running the application mentioned above properly.
