

CONTENTS

I. Outline of the GH97 and GA97 research cruises on the Tokai offshore area	<i>Yuasa, M. and Okamura, Y.</i>	1
II. Preliminary results of seismic profiling survey of the Sagami and Suruga troughs around the Izu Peninsula	<i>Okamura, Y., Murakami F. and Kuramoto, S.</i>	13
III. Preliminary results on seismic reflection surveys of the offshore Tokai district	<i>Arai, K., Okamura Y. and Kuramoto S.</i>	23
IV. High resolution multichannel seismic survey in the off Tokai area	<i>Kuramoto, S., Okamura, Y., Arai, K. and Murakami, F.</i>	33
V. Deep-towed multi-sensor vehicle survey reveals a high resolution active fault system in the off Tokai area	<i>Kuramoto, S., Joshima, M., Nishimura, K., Sayanagi, K. and Murakami, F.</i>	51
VI. Micro-topographic features in the off Tokai area obtained by deep-tow-type side-scan-sonar surveying	<i>Joshima, M. and Kuramoto, S.</i>	59
VII. Magnetic and gravity anomalies of the offshore Tokai region	<i>Ishihara, T. and Joshima, M.</i>	75
VIII. Heat flow measurements in the off Tokai area	<i>Joshima, M. and Kuramoto, S.</i>	81
IX. Oceanographic and environmental aspects off Tokai region	<i>Ikehara, K., Katayama, H., Saito, Y., Ishizuka, O., Komiya, M., Kogame, I. and Nakasone, T.</i>	87
X. Surface sediment characteristics and sedimentology off Tokai region	<i>Ikehara, K., Katayama, H., Saito, Y., Komiya, M., Ishizuka, O., Yuasa, M. and Nakasone, T.</i>	101
XI. Magnetic susceptibility anisotropy and remanence of some deep-sea sediments of the Tokai basin	<i>A. L. Abdeldayem, Yamazaki, T. and Ikehara K.</i>	127
XII. Geochemistry of elements in coastal marine sediments from the Off Shizuoka, central Japan	<i>Terashima, S., Ikehara, K., Katayama, H. and Saito, Y.</i>	147
XIII. Carbon and nitrogen contents of surface sediments collected from off Tokai area, Japan	<i>Maekawa, T. and Komiya, M.</i>	165
XIV. Petrography and isotopic age of volcanic rocks dredged from the back-arc ridges and knolls at the north end of the Izu-Ogasawara Arc	<i>Ishizuka, O. and Yuasa, M.</i>	171
XV. Preliminary report on the distribution of planktic foraminifera in surface sediments from the sea off Tokai, Japan		

.....	<i>Oda, M., Domitsu, H., Hamada, H., Kuwahara, K., Murakami, T. and Kikuchi, Y.</i>	191
XVI.	Calcareous nannofossil biostratigraphy of surface sediments off Tokai area	
.....	<i>Tanaka, Y.</i>	199
